ROOM SIGNAGE

A simple way to manage meeting rooms and other spaces to display up-to-date information in real-time

DIGITAL ROOM SIGNAGE

The values of a digital room signage solution are clear:

- Up-to-date information on meeting rooms, conference rooms and door signs
- Staff and visitors can easily navigate
- Easy and elegant installation with simple mounting options
- Wireless solution with low power consumption

Learn more at www.delfi.com

CONNECTED TO YOUR CALENDAR

Connected to your calendar, meeting reservation system or other data sources, the electronic meeting and conference room signs are automatically updated via a wireless network.

NO CABLES NEED TO BE INSTALLED

The wireless room signage solution doesn't require cables to be installed. It communicates via a dedicated 2-way radio frequency with no interference from other wireless systems.

STANDARD INTERFACES

The solution offers standard interface options to your calendar which makes it possible to update the room signs by simply just creating an event in your calendar.

DIGITAL ROOM SIGNAGE SOLUTION

- Electronic signs
- Wireless communicator
- Software subscription for room signage (plug and play installation with Breece Cloud)

The electronic signs have changeable batteries

ORGANIZE AND IDENTIFY

Be visible with our dynamic room signage and office signage solutions. Organize and identify meeting rooms and spaces with accurate and real-time information, enabling people to easily navigate.

ROOM SIGNAGE - PERFECT FOR

- Offices
- Meeting rooms
- Schools and universities
